

Cartier Communications Inc. is a small market broadcaster that does not air offensive syndicated programming such as Howard Stern. WICY is a community-oriented radio station that respects the public trust that is incumbent with our license.

We strongly object to the FCC's mandatory recording proposal. If enacted, this proposal would penalize the thousands of responsible broadcasters like ourselves who have never had a complaint about their programming filed with the FCC, in an effort to target the few stations with controversial programming.

The capital investment required to record and archive thousands of hours of broadcast time would be particularly burdensome on broadcasters operating in smaller markets.

We respectfully request that this proposal not be enacted.

Yours truly,
Timothy Martz
President
